22mm precision tube for a distinctive look.

4.9KG
Net weight

Lightweight

At just 4.9 kg, it redefines lightweight standards in the industry with unmatched competitiveness. Easy to lift with one hand and smooth to push, making every move effortless

Redefines industry lightweight standards

Titanium alloy body, premium and durable

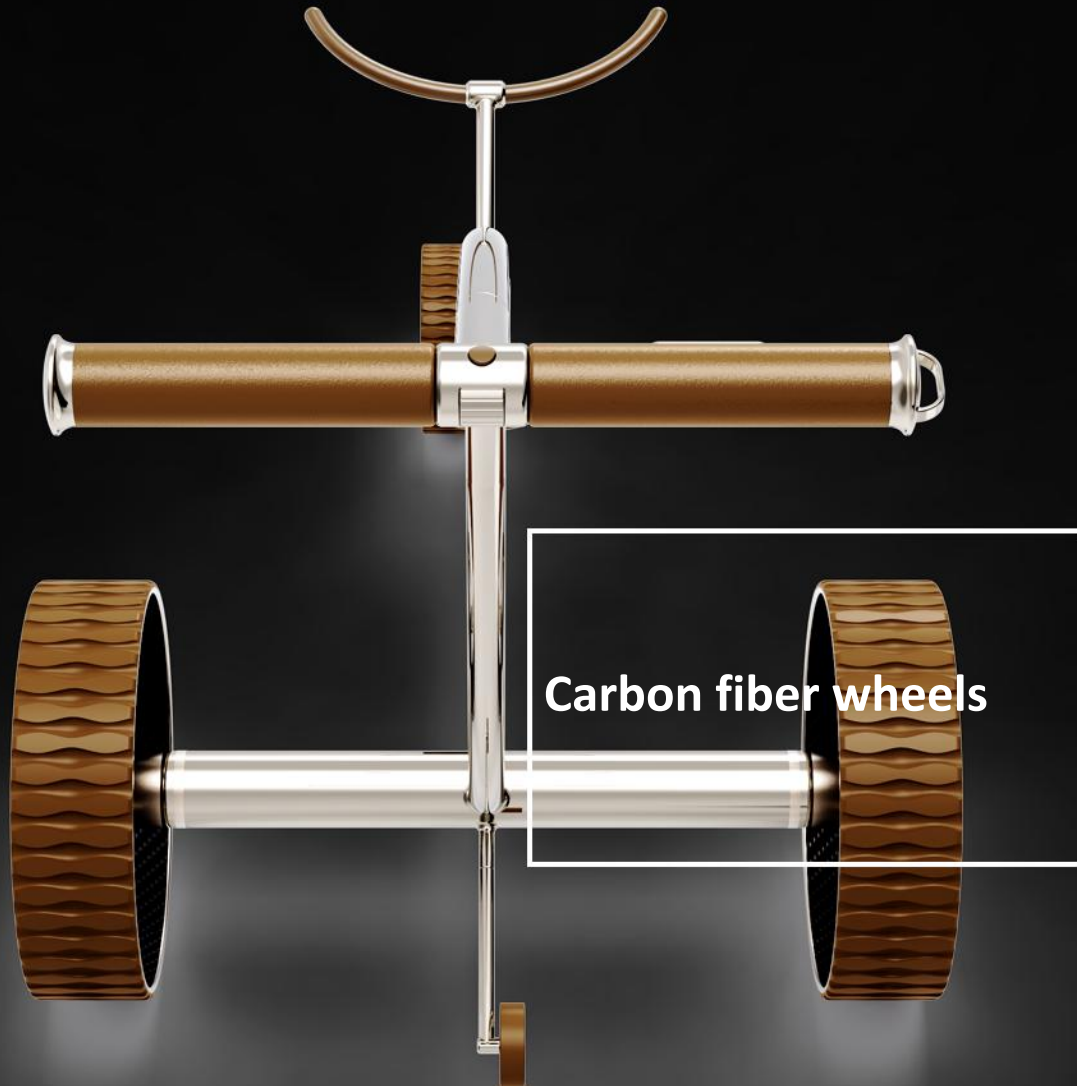

NAVEE

Thanks to its high strength-to-weight ratio, the titanium alloy body delivers lightweight performance without compromising rigidity and load capacity. Excellent fatigue and oxidation resistance further ensure long-lasting durability and stability.

Titanium alloy body

Lightweight
Structural rigidity

Carbon fiber wheels, lightweight and tough for all terrains

Lightweight yet exceptionally strong, carbon fiber wheel hubs provide outstanding impact and fatigue resistance for stable, safe performance on varied terrains. Their vibration-dampening structure ensures a smoother, quieter ride—perfect for golf courses and beyond.

The unique fiber structure delivers smoother operation

Unmatched power driven

NAVEE

Equipped with dual robot-grade ultra-slim coreless motors, it offers greater power with less weight, noise, and energy consumption. Driven by an industry-leading 48V system with peak output of $2 \times 120\text{W}$, it conquers slopes up to 25% with ease—perfect for complex golf course terrains.

AI Caddie
Instructional Support

NAVEE

Radar & Vision Technology

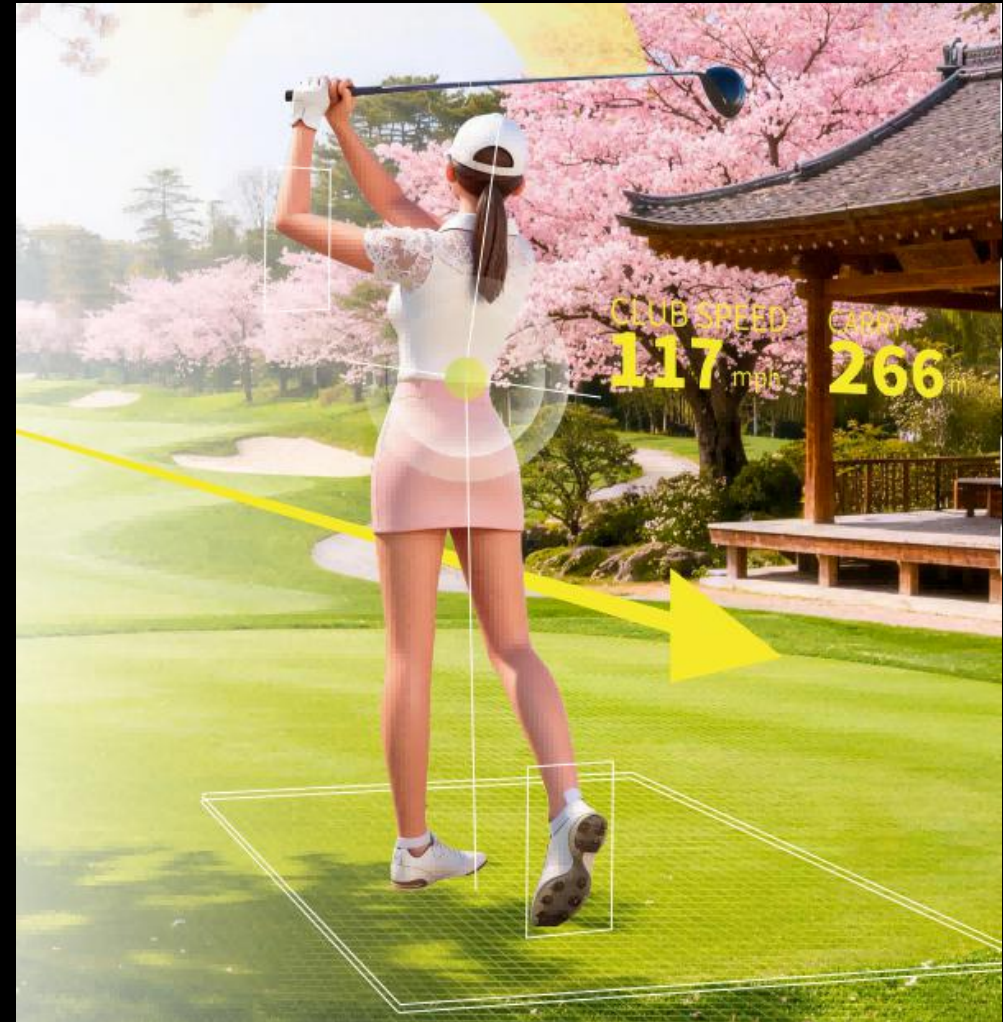

The world's first fusion of radar and binocular vision technology, powered by AI-driven dual correction. This breakthrough overcomes ambient light limitations and eliminates blind spots for all-weather, all-scenario monitoring. Compatible with all clubs and specialized shots, it delivers an industry-leading data reliability of 99.99%.

NAVEE

AI-Powered Instruction

Featuring the all-new AI Caddie system, Raysight V1 provides intelligent landing zone recommendations, putting assistance, course analysis, and distance cues. By capturing every swing with crystal clarity and offering flexible multi-angle playback, the system delivers pro-level instructional support. It streamlines swing corrections, making every practice session more professional and efficient.

NAVEE

Metaverse Golf

Step into an immersive world with Cyberpunk cities, Avatar-inspired landscapes, and Sakura-themed driving ranges. By breaking the monotony of traditional practice, we bring a fresh sense of fun and excitement to every swing.

NAVEE

Customization Service

From personalized 3D virtual ranges to customizable hardware exteriors and screen dimensions, we provide end-to-end bespoke services. The system features deep integration with putting areas, lighting, and audio, ensuring the equipment aligns flawlessly with your space and branding.

NAVEE

1.43-INCH AMOLED TOUCHSCREEN

Navee GT2 provides a 1.43-inch AMOLED touchscreen, a feature typically found only in Garmin models priced at \$600+. This offers users a significantly better experience when viewing distance data and navigating the screen.

FREE 40,000+ GLOBAL PANORAMIC FAIRWAY VIEWS & ANY-POINT DISTANCE MEASUREMENT

Users can access panoramic fairway views and slope compensation features without any paid subscription, assisting them in better shot-line planning and club selection.

NAVEE

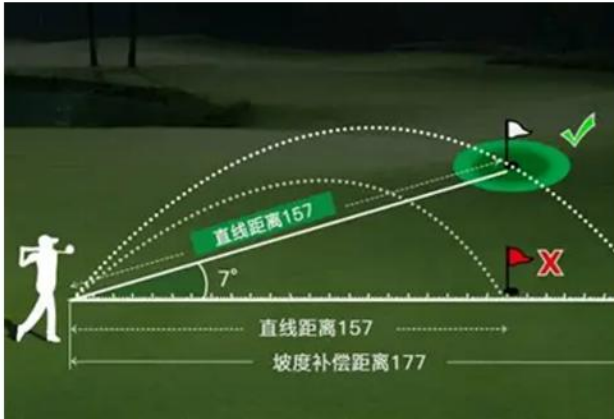

SUPPORTS BASIC HEALTH
MONITORING
(EXERCISE HR, CALORIES,
AND BLOOD OXYGEN)

FREE PLAYLIKES FUNCTION

NAVEE

The elevation changes (slope) of a golf course significantly impact the landing distance of the ball. The distance calculated after slope compensation provides much higher reference value for precise club selection.

Navee provides
PlayLikes Distance

VS

Garmin S44 Only
provides Direct Distance
