

 WYBOTICS | WYBOT

INTELLIGENT CORDLESS POOL CLEANERS OF 2027

www.wybotpool.com

Company Profile

WYBOTICS Co, Ltd., established in 2005, is a leading company in pool cleaning industry.

WYBOTICS is committed to providing the best solution for global customers through its continuous innovation and cutting-edge technologies integration, leading the future of pool cleaning.

We develop and manufacture a broad range of pool cleaning products, covering handheld vacuum cleaners, corded robotic pool cleaners, and cordless robotic pool cleaners.

Until now, WYBOTICS, whose headquarter is located in Tianjin China, has established a complete research and development, manufacturing, sales, and service network in the industry, comprising 4 subsidiaries and branch offices globally, to ensure quick responses to the needs of customers, users and partners.

1st COMPANY TO INTRODUCE CORDLESS ROBOTIC POOL CLEANERS IN THE MARKET

About WYBOT

The pool is an oasis on your patio, where you shed fatigue and embrace coolness in the blazing summer. Hassle and troublesome pool cleaning should not be your burden. Thus, WYBOT pool cleaning robots have entered the pool cleaning market, pursuing effortless pool cleaning, and freeing pool owners from laborious maintenance tasks.

Today, WYBOT features high intelligence and industry game-changer, offering an effortless pool maintenance experience, and earning unanimous praise from users for their ultimate autonomous cleaning methods and simple, convenient operation design.

R&D Team and Core Technology

We are a professional team that dares to innovate and embrace challenges. We dedicate ourselves to developing cutting-edge technologies in the industry, breaking through multiple underwater technical barriers. To date, we have pioneered applications such as underwater debris recovery, underwater V slam, underwater wireless charging technologies, underwater communication technology, underwater dock-to-charge technology, and underwater visual assistance cleaning technologies.

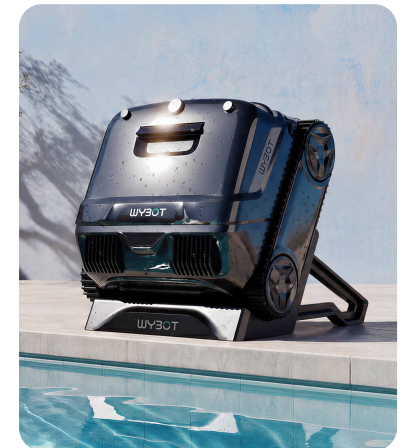

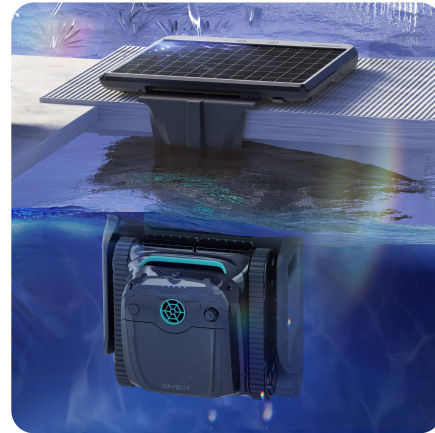

Our pool cleaning robots integrate multiple high-precision sensors and utilize advanced algorithmic technology developed by our team, innovating highly autonomous pool cleaning capabilities. Currently, the cleaning robots achieve comprehensive coverage and shorter cleaning wait times, allowing users to check and modify cleaning settings at any time.

WYBOT S3

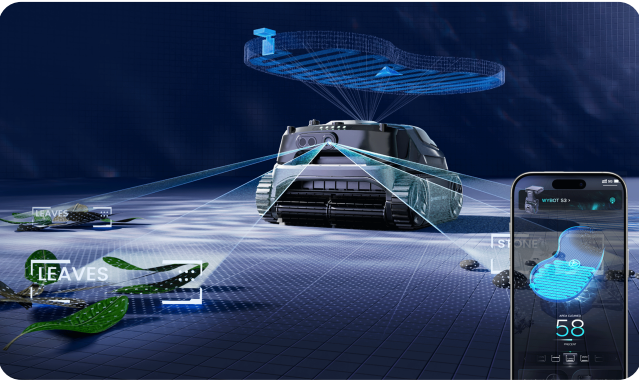

The era of Pool Cleaning 3.0 has arrived. WYBOT S3 can keep your pool clean for up to one month with zero intervention. It's time to forget about pool cleaning. WORLD'S FIRST!

Specifications

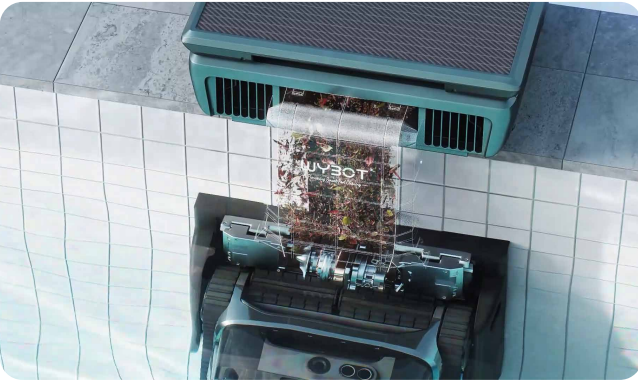

Coverage / Pool Size (Up to)	300 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Weekly Timer
Brushes	2	Cleaning Modes	12
Sensor Type	Ultrasonics & Camera & TOF	Remote Updates	✓
Battery Capacity	7800mAh	Robot Size (L)*(W)*(H)mm	399*392*254
Suction Power (Watts)	120	Camera	✓
Motors	3	Run Time	2,5h
Filtration Type	Multi-level	Charging Time	3,5h (DC Charger)
Flow Rate (m³/h)	14	Charging Type (Charger / Solar / Charging Base)	DC Charger / Solar / Charging Base

Main Features

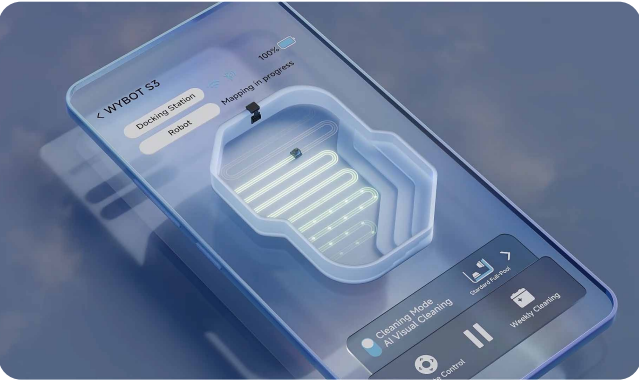

The World's First Robotic Pool Cleaner with Underwater 3D Mapping And Positioning

Complete a 3D map of your pool at the first cleaning, and as for the 3D map, the robot fully understands its environment and automatically plans the most efficient cleaning route.

The World's First Robotic Pool Cleaner with Automatic Charging and Self-Cleaning Capabilities

With an exclusive self-cleaning function, the robot transfers all debris from the filter basket to an onshore dustbin, completing its self-cleaning process and extending cleaning cycles for up to one month. Even while you're on vacation, rest assured that your pool will remain clean and worryfree.

Real-Time Positioning

With underwater communication and cloud connectivity, you can track the robot's cleaning progress in real-time via your mobile device, and remotely direct it to focus on specific areas. No matter where you are, your pool's cleanliness is always in your control.

Large-Capacity and Self-Sanitizing Dirt Collector

The 10L ultra-large capacity dirt collector ensures up to a full month of cleaning cycles. Equipped with internal filtration and self-sanitizing systems, it performs secondary cleaning of dirt, guaranteeing worry-free pool water quality*.

Advanced Cleaning Management System

Equipped with an advanced cleaning management system, it follows preset schedules and provides real-time progress updates.

Solar Charging & DC Charging

Support solar charging and DC charging, keeping the robot energetic all the time in any way.

*The effectiveness and capacity of the product may vary depending on the level of debris or contamination present in your pool.

WYBOT C3

The world’s most advanced AI-Powered pool robot with LiDAR Mapping Technology.

Specifications

Coverage / Pool Size (Up to)	180 m ²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	1h, 2h, 3h
Brushes	2	Cleaning Modes	7
Sensor Type	Laser & Camera	Remote Updates	/
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	380*400*240
Suction Power (Watts)	140	Camera	✓
Motors	4	Run Time	3h
Filtration Type	Multi-level	Charging Time	4,5h (Charging Base)
Flow Rate (m ³ /h)	16	Charging Type (Charger / Solar / Charging Base)	Charging Base

Main Features

Dual Brushless Pumps

Powerful suction removes debris in a single pass, keeping the pool spotless and reducing missed areas.

Complete Pool Coverage

Cleans the entire pool, including steps, with targeted cleaning for better results.

LiDAR Vision Mapping Technology

LiDAR Vision technology delivers smarter navigation and complete pool coverage by creating pool map.

Waterline Parking & Smart Alerts

Parks at the waterline and alerts you when cleaning is complete.

Wireless Charging and Long Battery Life

Comes with a dedicated charging dock and wireless charging design for easy use and compact storage. Provides up to 3 hours of continuous operation, ideal for full cleaning of small to medium-sized pools, with flexible runtime options.

Easy Maintenance, Built to Last

Quick-disassembly modular structure allows for fast replacement of key components, simplifying upkeep and enhancing long-term durability.

WYBOT B1

Smart full pool cleaning for small pools.

Specifications

Coverage / Pool Size (Up to)	100 m ²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	1h, 2h
Brushes	6 (2 side brushes)	Cleaning Modes	5
Sensor Type	IMU	Remote Updates	✓
Battery Capacity	2600mAh	Robot Size (L)*(W)*(H)mm	362*351*225
Suction Power (Watts)	33	Camera	/
Motors	3	Run Time	2h
Filtration Type	180µm	Charging Time	3h (DC Charger)
Flow Rate (m ³ /h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

Compact and Lightweight Design

A small, easy-to-handle body designed specifically for small pools. Effortless to lift, store, and operate.

Excellent Obstacle-Crossing Capability

Smoothly navigates over pool floor obstacles to prevent getting stuck or interrupted during cleaning.

Intelligent Cleaning Experience

Offers multiple cleaning paths with full coverage of the pool floor, walls, and waterline. Easily set cleaning parameters, view cleaning history, and perform OTA for continuous performance improvement.

Edge Cleaning Function

A dedicated side brush system sweeps along walls and corners, delivering a complete edge-to-edge clean.

Up to 2 Hours of Battery Life

Provides sufficient runtime for complete cleaning of small pools, with adjustable cleaning duration for different needs.

Modular Quick-Release Design

Independently replaceable core components allow easy maintenance and long-lasting durability.

WYBOT S2 Solar Vision

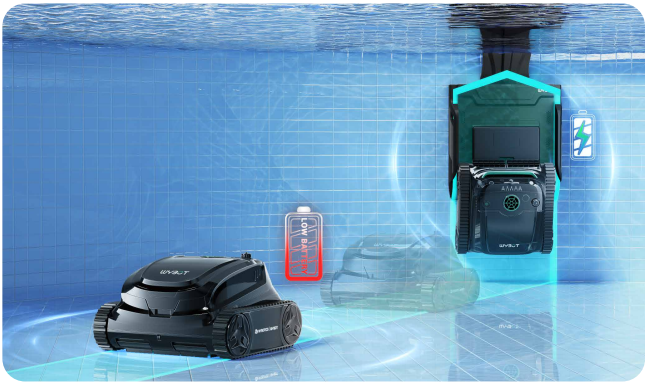

With vision technology and solar panels, the WYBOT S2 Solar Vision redefines pool cleaning work and splashing happiness. Fully autonomous cleaning and underwater recharging will free you from the hassle of pool work and enable a greener summertime.

Specifications

Coverage / Pool Size (Up to)	300 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Weekly Timer
Brushes	2	Cleaning Modes	12
Sensor Type	Ultrasonics & Camera & Infrared	Remote Updates	✓
Battery Capacity	5200mAh	Robot Size (L)*(W)*(H)mm	400*390*255
Suction Power (Watts)	90	Camera	✓
Motors	3	Run Time	2,5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	14	Charging Type (Charger / Solar / Charging Base)	DC Charger / Solar / Charging Base

Main Features

Docking Station

The world's first underwater-docking and wireless-charging pool station innovates a new trend in patio cleaning work.

Solar Charging

Support solar charging and DC charging, keeping the robot energetic all the time in any way.

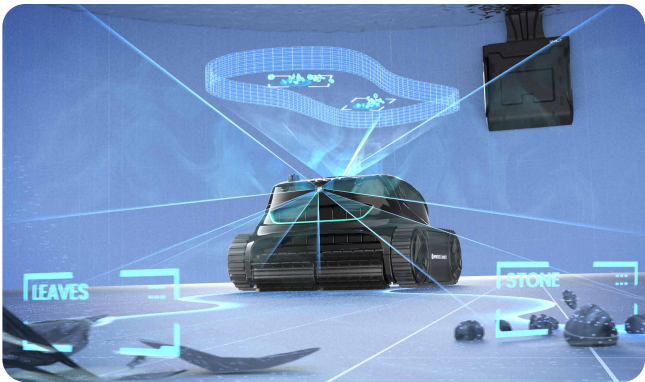

AI visual High-Efficiency Cleaning

AI visual assistance cleaning technology sets a new standard for rapid cleaning. A 'visible' machine for visible efficiency.

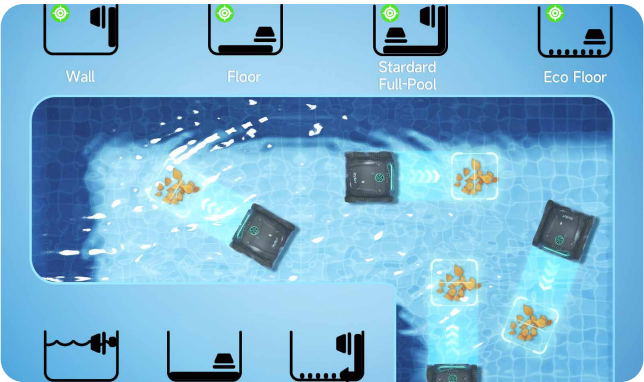

Underwater Communication

Break through the restriction of deep water and notify you of each cleaning movement. At your fingertips, every pool cleaning setting can be tailored at any time.

Versatile Cleaner

Cover every corner of all types of pools, leaving no dirty uncleaned.

8 Cleaning Modes & 7 Cleaning Paths

Easy to choose your cleaning area through your robot or the Application, and pair the best path for a full cleaning.

WYBOT S2 Solar

Specifications

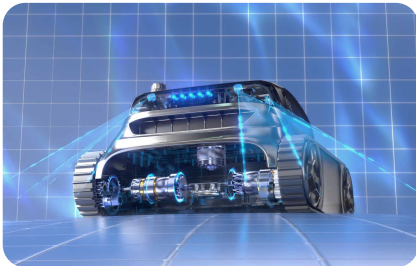

Coverage / Pool Size (Up to)	300 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Weekly Timer
Brushes	2	Cleaning Modes	7
Sensor Type	Ultrasonics & Camera & Infrared	Remote Updates	✓
Battery Capacity	5200mAh	Robot Size (L)*(W)*(H)mm	400*390*255
Suction Power (Watts)	90	Camera	/
Motors	3	Run Time	2,5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	14	Charging Type (Charger / Solar / Charging Base)	DC Charger / Solar / Charging Base

Main Features

Solar Charging

Support solar charging and DC charging, keeping the robot energetic all the time in any way.

Versatile Cleaner

Cover every corner of all types of pools, leaving no dirty uncleaned.

7 Cleaning Modes & 7 Cleaning Paths

Easy to choose your cleaning area through your robot or the Application, and pair the best path for a full cleaning.

WYBOT S2 Vision

Specifications

Coverage / Pool Size (Up to)	300 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	8
Sensor Type	Ultrasonics & Camera & Infrared	Remote Updates	✓
Battery Capacity	5200mAh	Robot Size (L)*(W)*(H)mm	400*390*255
Suction Power (Watts)	90	Camera	✓
Motors	3	Run Time	3,5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	14	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

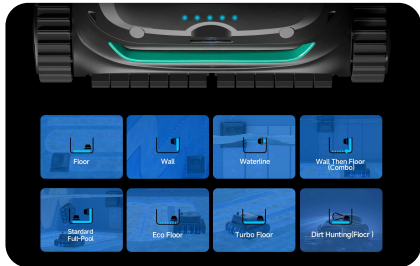

AI visual High-Efficiency Cleaning

AI visual assistance cleaning technology sets a new standard for rapid cleaning. A 'visible' machine for visible efficiency.

Versatile Cleaner

Cover every corner of all types of pools, leaving no dirty uncleaned.

8 Cleaning Modes & 7 Cleaning Paths

Easy to choose your cleaning area through your robot or the Application, and pair the best path for a full cleaning.

WYBOT S2 Pro

Specifications

Coverage / Pool Size (Up to)	300 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Weekly Timer
Brushes	2	Cleaning Modes	7
Sensor Type	Ultrasonics & Infrared	Remote Updates	✓
Battery Capacity	7800mAh	Robot Size (L)*(W)*(H)mm	400*390*255
Suction Power (Watts)	90	Camera	/
Motors	3	Run Time	3,5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	14	Charging Type (Charger / Solar / Charging Base)	DC Charger / Charging Base

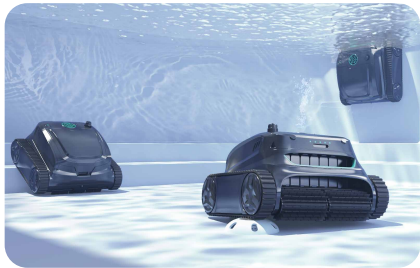

Main Features

Waterline Docking Station
Automatically return to the docking station for inductive charging, keeping standby for the next cleaning.

Remote Control Underwater
Penetrating the barrier of water, remotely control the cleaner while underwater.

Highly Intelligent Navigation
High-precision sensors guarantee a smarter and thorough cleaning for floors, walls, and waterlines of all types of pools.

WYBOT S2

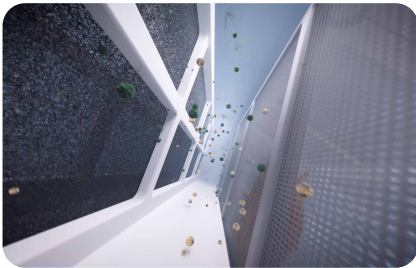

Specifications

Coverage / Pool Size (Up to)	300 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	7
Sensor Type	Infrared	Remote Updates	✓
Battery Capacity	7800mAh	Robot Size (L)*(W)*(H)mm	400*390*255
Suction Power (Watts)	90	Camera	/
Motors	3	Run Time	3,5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	14	Charging Type (Charger / Solar / Charging Base)	DC Charger

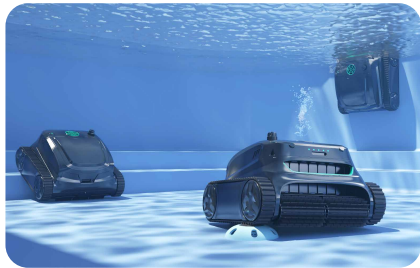

Main Features

7 Cleaning Modes
Preset your cleaning mode via Application. Customize for the utmost suitability.

Extraordinary Cleaning
Features a brushless motor for improving suction and scrubbing, and double-level filtration for eliminating ultrafine debris.

Highly Intelligent Navigation
High-precision sensors guarantee a smarter and thorough cleaning for floors, walls, and waterlines of all types of pools.

WYBOT M2

Specifications

Coverage / Pool Size (Up to)	400 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	4	Cleaning Modes	8
Sensor Type	Infrared & Camera	Remote Updates	✓
Battery Capacity	10000mAh	Robot Size (L)*(W)*(H)mm	460*420*230
Suction Power (Watts)	120	Camera	✓
Motors	3	Run Time	5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	15	Charging Type (Charger / Solar / Charging Base)	DC Charger

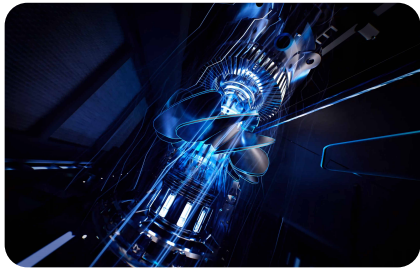

Main Features

AI visual High-Efficiency Cleaning
AI visual assistance cleaning technology sets a new standard for rapid cleaning. A 'visible' machine for visible efficiency.

8 Cleaning Modes
Preset your favorable cleaning mode via the Application. Customize for the utmost suitability.

Extraordinary Cleaning
Features a brushless motor for improving suction and scrubbing, and double-level filtration for eliminating ultrafine debris.

WYBOT M1

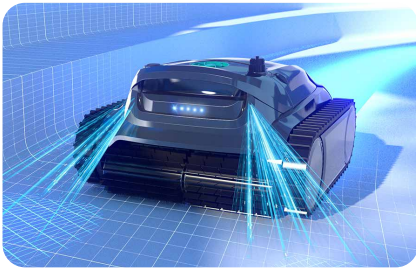

Specifications

Coverage / Pool Size (Up to)	400 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	4	Cleaning Modes	7
Sensor Type	Infrared	Remote Updates	✓
Battery Capacity	10000mAh	Robot Size (L)*(W)*(H)mm	460*420*230
Suction Power (Watts)	120	Camera	/
Motors	3	Run Time	5h
Filtration Type	Multi-level	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	15	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

Powerful and Durable
A 120W brushless motor intensifies suction and scrubbing while double-level filtration eliminates ultrafine debris.

Intelligent Navigation
High-precision sensors guarantee a smarter and thorough cleaning for floors, walls, and waterlines of all types of pools.

All Week Clean Keeper
5 hours of runtime, keeping your pool all week clean with 4*75-min. floor cleaning cycles.

WYBOT C2 Pro Vision

Specifications

Coverage / Pool Size (Up to)	150~180 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	8
Sensor Type	Ultrasonics & Camera	Remote Updates	✓
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	360*360*240
Suction Power (Watts)	70	Camera	✓
Motors	3	Run Time	3h
Filtration Type	Multi-level	Charging Time	3,5h (DC Charger)
Flow Rate (m³/h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

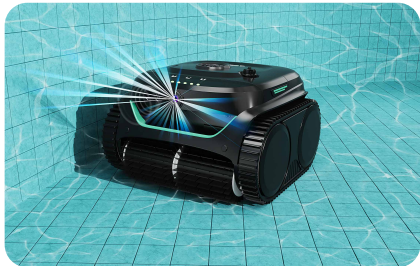

Main Features

AI visual High-Efficiency Cleaning
AI visual assistance cleaning technology sets a new standard for rapid cleaning. A 'visible' machine for visible efficiency.

Versatile Cleaner
Cover every corner of all types of pools, leaving no dirty uncleaned.

Sonar Technology
Built-in sonar sensor guides six cleaning paths, tailoring the best cleaning for different pool shapes.

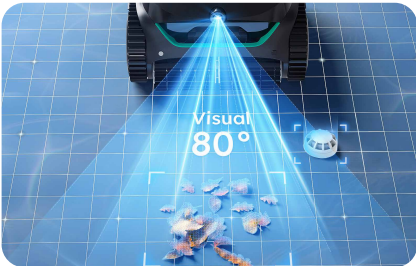

WYBOT C2 Vision

Specifications

Coverage / Pool Size (Up to)	150~180 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	8
Sensor Type	Camera & IMU	Remote Updates	✓
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	360*360*240
Suction Power (Watts)	70	Camera	✓
Motors	3	Run Time	3h
Filtration Type	Multi-level	Charging Time	3,5h (DC Charger)
Flow Rate (m³/h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

AI visual High-Efficiency Cleaning
AI visual assistance cleaning technology sets a new standard for rapid cleaning. A 'visible' machine for visible efficiency.

Versatile Cleaner
Cover every corner of all types of pools, leaving no dirty uncleaned.

All Week Clean Keeper
3 hours of runtime, keeping your pool all week clean with 4*45-min. floor cleaning cycles.

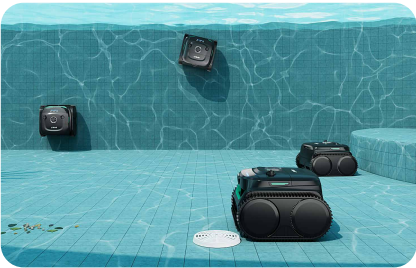

WYBOT C2 Pro

Specifications

Coverage / Pool Size (Up to)	150 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	7
Sensor Type	Sonar & IMU	Remote Updates	✓
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	360*360*240
Suction Power (Watts)	70	Camera	/
Motors	3	Run Time	3h
Filtration Type	Multi-level	Charging Time	3,5h (DC Charger)
Flow Rate (m³/h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

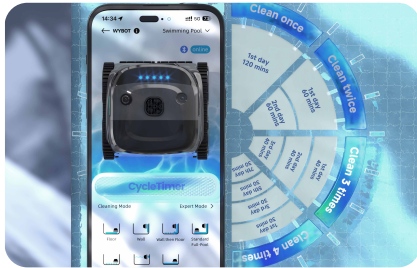

Main Features

Versatile Cleaner
Cover every corner of all types of pools, leaving no dirty uncleaned.

Sonar Technology
Built-in sonar sensor guides six cleaning paths, tailoring the best cleaning for different pool shapes.

All Week Clean Keeper
3 hours of runtime, keeping your pool all week clean with 4*45-min. floor cleaning cycles.

WYBOT C2

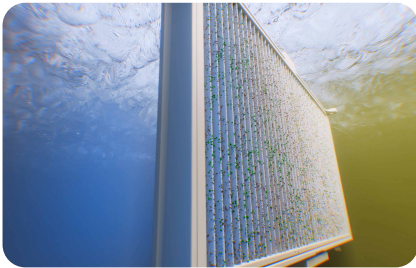

Specifications

Coverage / Pool Size (Up to)	150 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	7
Sensor Type	IMU	Remote Updates	✓
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	360*360*240
Suction Power (Watts)	70	Camera	/
Motors	3	Run Time	3h
Filtration Type	Multi-level	Charging Time	3,5h (DC Charger)
Flow Rate (m³/h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

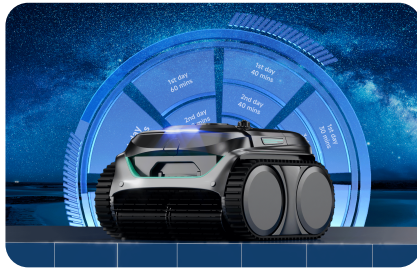

Main Features

Versatile Pool Cleaner
Be able to cross obstacles and climb slopes and steps, ensuring every corner of the pool be cleaned.

Extraordinary Cleaning
Features a brushless motor for improving suction and scrubbing, and double-level filtration for eliminating ultrafine debris.

All Week Clean Keeper
3 hours of runtime, keeping your pool all week clean with 4*45-min. floor cleaning cycles.

WYBOT C1 Pro

Specifications

Coverage / Pool Size (Up to)	120~150 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	5
Sensor Type	Infrared & IMU	Remote Updates	✓
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	372*360*240
Suction Power (Watts)	65	Camera	/
Motors	3	Run Time	2,5h
Filtration Type	180µm	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

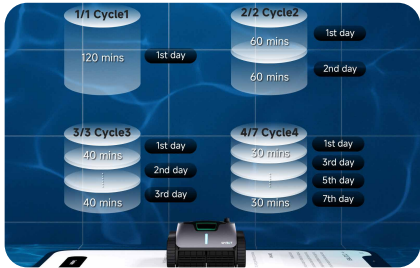

Versatile Pool Cleaner

Be able to cross obstacles and climb slopes and steps, ensuring every corner of the pool be cleaned.

Intelligent Navigation

Multiple high-precision sensors integration guarantee a smarter and more thorough cleaning for all types of pools.

All Week Clean Keeper

2 hours of runtime, keeping your pool all week clean with 4*30-min. floor cleaning cycles.

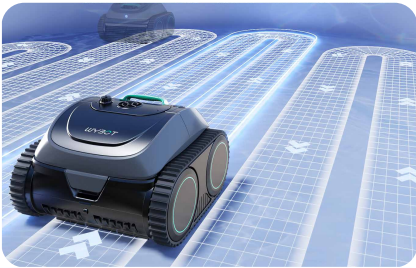

WYBOT C1

Specifications

Coverage / Pool Size (Up to)	120~150 m²	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	✓	Timer Set Up	Cycle Timer
Brushes	2	Cleaning Modes	5
Sensor Type	IMU	Remote Updates	✓
Battery Capacity	4600mAh	Robot Size (L)*(W)*(H)mm	360*390*260
Suction Power (Watts)	65	Camera	/
Motors	3	Run Time	2,5h
Filtration Type	180µm	Charging Time	3h (DC Charger)
Flow Rate (m³/h)	11,5	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

Versatile Pool Cleaner

Be able to cross obstacles and climb slopes and steps, ensuring every corner of the pool be cleaned.

Intelligent Navigation

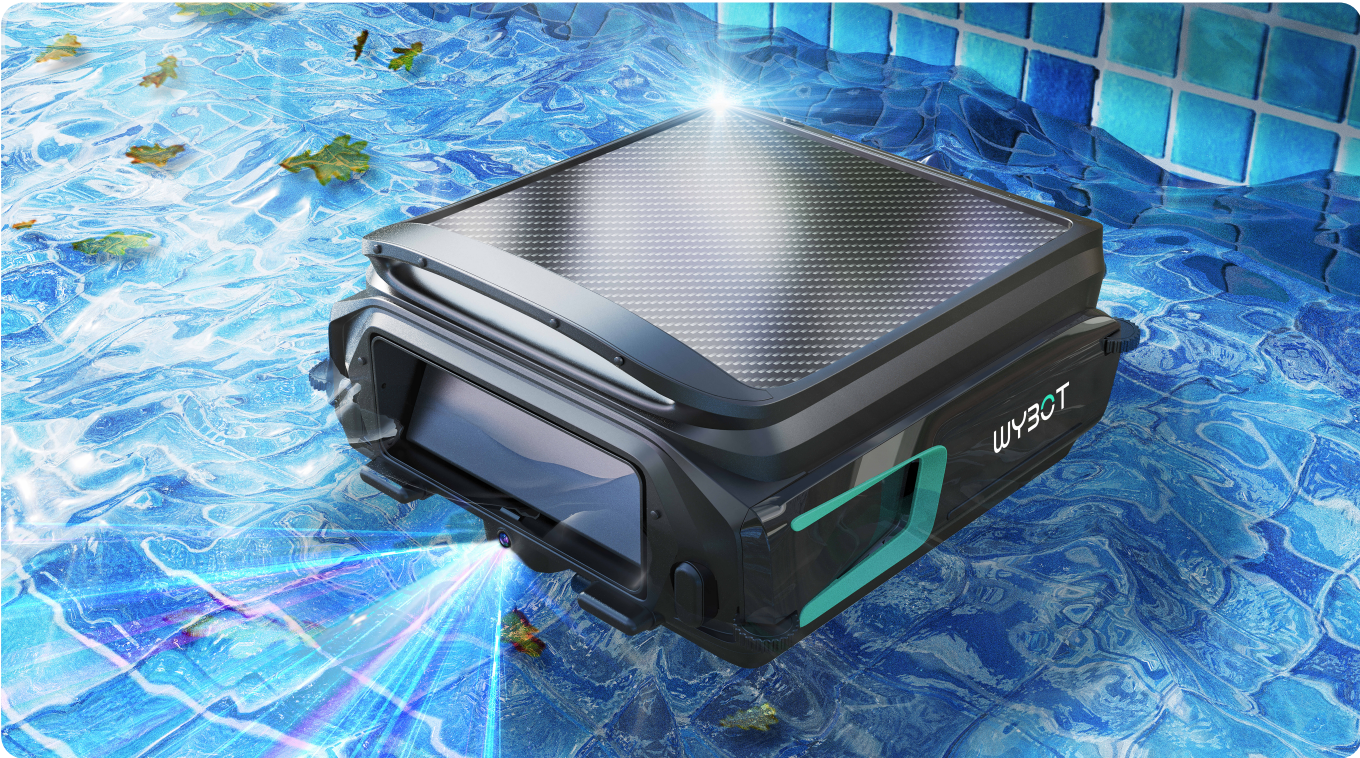

Multiple high-precision sensors integration guarantee a smarter and more thorough cleaning for all types of pools.

All Week Clean Keeper

2 hours of runtime, keeping your pool all week clean with 4*30-min. floor cleaning cycles.

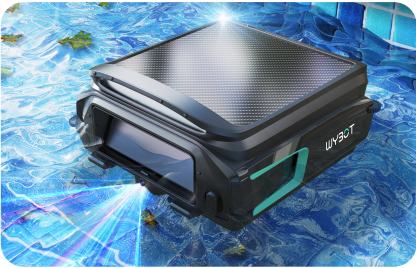

WYBOT F1 Vision

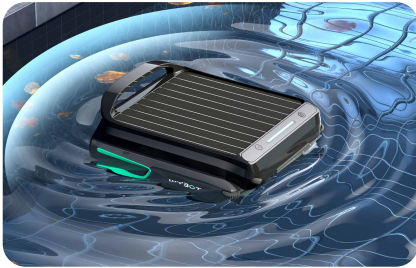

Specifications

Coverage / Pool Size (Up to)	Auto charging & auto skimming, with no limit of pool size	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	Surface only	Timer Set Up	/
Brushes	/	Cleaning Modes	1
Sensor Type	Camera & IMU	Remote Updates	✓
Battery Capacity	5200mAh	Robot Size (L)*(W)*(H)mm	451*427*193
Suction Power (Watts)	33	Camera	✓
Motors	2	Run Time	8h
Filtration Type	180µm	Charging Time	6h (Solar Charging)
Flow Rate (m³/h)	3	Charging Type (Charger / Solar / Charging Base)	DC Charger / Solar

Main Features

AI visual High-Efficiency Skimming
AI visual assistance skimming technology sets a new standard for rapid skimming. A 'visible' machine for visible efficiency.

Edge Cleaning
The specialized edge cleaning mode assists in rapidly clearing debris along the pool edges, ensuring a spotless surface.

Cloud Connectivity
Select your skimming modes through the Application, and remotely control its running at your fingertips.

WYBOT F1S

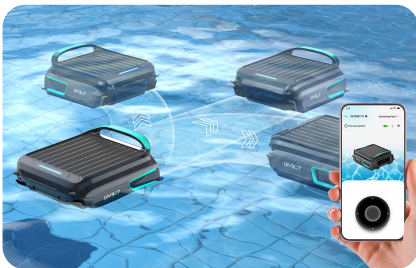

Specifications

Coverage / Pool Size (Up to)	Auto charging & auto skimming, with no limit of pool size	Smart Application (Bluetooth / Wi-Fi)	✓
Floor / Wall / Waterline	Surface only	Timer Set Up	/
Brushes	/	Cleaning Modes	2
Sensor Type	IMU	Remote Updates	✓
Battery Capacity	5200mAh	Robot Size (L)*(W)*(H)mm	451*427*193
Suction Power (Watts)	33	Camera	/
Motors	2	Run Time	12/24h
Filtration Type	180µm	Charging Time	6h (Solar Charging)
Flow Rate (m³/h)	3	Charging Type (Charger / Solar / Charging Base)	DC Charger / Solar

Main Features

Edge Cleaning
The specialized edge cleaning mode assists in rapidly clearing debris along the pool edges, ensuring a spotless surface.

Cloud Connectivity
Select your skimming modes through the Application, and remotely control its running at your fingertips.

Solar Power & DC Charging
Two charging methods ensure your skimmer works all the time with no influence from the weather.

WYBOT A1

Specifications

Coverage / Pool Size (Up to)	80~100 m²	Smart Application (Bluetooth / Wi-Fi)	/
Floor / Wall / Waterline	Floor only	Timer Set Up	Cycle Timer
Brushes	/	Cleaning Modes	1
Sensor Type	/	Remote Updates	/
Battery Capacity	2600mAh	Robot Size (L)*(W)*(H)mm	345*315*170
Suction Power (Watts)	33	Camera	/
Motors	2	Run Time	2h
Filtration Type	Multi-level	Charging Time	2,5h (DC Charger)
Flow Rate (m³/h)	7,0	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

Patented Edge Cleaning

Always concerned about the dirtiest parts of your pool, the patented edge cleaning tech strengthens its cleaning there.

Compact Design

Light weight design eases transportation around and removal from the pool.

All Week Clean Keeper

2 hours of runtime, keeping your pool all week clean with 4*30-min. floor cleaning cycles.

HJ1102P

Specifications

Coverage / Pool Size (Up to)	60 m²	Smart Application (Bluetooth / Wi-Fi)	/
Floor / Wall / Waterline	Floor only	Timer Set Up	/
Brushes	/	Cleaning Modes	1
Sensor Type	/	Remote Updates	/
Battery Capacity	3200mAh	Robot Size (L)*(W)*(H)mm	330*308*228
Suction Power (Watts)	33	Camera	/
Motors	2	Run Time	70min
Filtration Type	Multi-level	Charging Time	4h (DC Charger)
Flow Rate (m³/h)	0,8	Charging Type (Charger / Solar / Charging Base)	DC Charger

Main Features

Compact and Easy to Operate

The lightweight body makes transportation effortless, while the one-button start simplifies the cleaning process.

Multi-Level Filtration

The ultra-fine filtration system captures even the smallest debris on the floor, purifying your pool in a single pass.

Full-Coverage Cleaning

The flexible cleaning path ensures full floor coverage, efficiently cleaning pools of any shape.

Hyson 100

Specifications

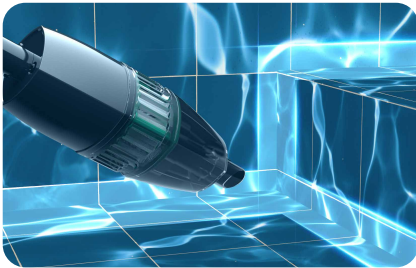

Coverage / Pool Size (Up to)	/	Smart Application (Bluetooth / Wi-Fi)	/
Floor / Wall / Waterline	Floor only	Timer Set Up	/
Brushes	/	Cleaning Modes	1
Sensor Type	/	Remote Updates	/
Battery Capacity	5200mAh	Robot Size (L)*(W)*(H)mm	440*132*110
Suction Power (Watts)	15	Camera	/
Motors	1	Run Time	60min
Filtration Type	250µm	Charging Time	4~5h (DC Charger)
Flow Rate (m³/h)	0,8	Charging Type (Charger / Solar / Charging Base)	Charging Cable

Main Features

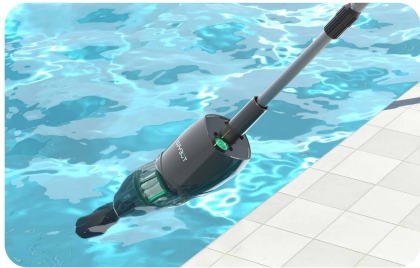

High-Power Suction

The powerful suction effortlessly captures all types of debris in the pool.

Corner Cleaner

The small suction head is designed for cleaning hard-to-reach corners and shallow areas.

Easy to Operate

One-button start for cleaning, with LED lights for easy monitoring of cleaning status.

World's 1st Self-Emptying Pool Robot with 3D mapping and real-time positioning
